

CEM invites you to visit us at Pittcon 2015, Booth #2509, where we'll be showcasing a full range of analyte detection and sample preparation instrumentation. Stop by and check out our advanced technology for food research and testing, which includes a brand new rapid sodium analysis system, as well as, our innovative new digestion system that can run your routine to extreme samples. You can also see how our existing products, such as the MARS 6 and Discover SP-D, are redefining the way laboratory science is done. Whether you are digesting, extracting, synthesizing, or detecting; CEM is your solution.

- Find out how we streamlined FAMEs sample prep to under an hour!
- Come listen to Dr. Phil Riby's talk entitled "The Rollercoaster of the USP/ICH trace metal regulations – What are the issues?" on Monday, March 9th and Wednesday March 11th at 2pm at the CEM booth #2509
- Join us for beer and wine from 3 to 5pm, following Monday's talk
- Don't miss CEM's owner and founder, Dr. Collins', press conference on Tuesday 11am at the CEM booth
- Stop by Tuesday at 2pm and find out how researchers from CEM and DuPont have worked together to determine the possibilities of using a fluoride surrogate other than HF in sample preparation. Daniel Iversen will a talk entitled "Quantitative Trace Metal Analysis using Hydrofluoric Acid Alternatives" at the CEM booth #2509

CEM Corporation, a private company based in Matthews, North Carolina, is a leading provider of microwave laboratory instrumentation. The Company has subsidiaries in the United Kingdom, Germany, Italy, France, and Japan, as well as a global network of distributors. CEM designs and manufactures systems for life sciences, analytical laboratories and processing plants worldwide. The Company's products are used in many industries including pharmaceutical, biotech, chemical and food processing, as well as academic research.
