### **Xylem showcases its Analytics brands and market solutions at Pittcon® 2016**

**ATLANTA, GA** – (March 7, 2016) – Xylem Inc., a leading global water technology company, will showcase their portfolio of strong industry-leading brands and comprehensive analytical solutions at Pittcon 2016.

Xylem's lab and field capabilities will be on display in booth #1449/1549 at Pittcon, at the Georgia World Congress Center in Atlanta, Georgia March 7-10.

#### **Customer focus and comprehensive solutions**

Xylem will demonstrate their comprehensive solutions and focused market approach at Pittcon 2016, rolling out a number of new products across multiple brands, while featuring products that serve customers in Food & Beverage, Life Science, Analytical Lab, Environmental, Wastewater, and Surface Water.

Many of the brands that make up the Xylem Analytics portfolio will be exhibiting at Pittcon, and they include YSI, OI Analytical, Bellingham + Stanley, SI Analytics and ebro.

"We continue to engage our customers in problem/solution dialogues, to provide products that solve a problem and enable our customers to make critical decisions." says Colin Sabol, Xylem SVP and President, Analytics and Treatment. "Whether a lab is tackling water quality or environmental issues, the breadth and depth of Xylem's offering across our brand portfolio enables us to develop products and solutions that address customer needs head on."

#### **New Products**

Xylem's OI Analytical will launch the new **OI 5383 Pulsed Flame Detector (PFPD)**. The new detector gives chemists the ability to specifically determine and selectively analyze low levels of sulfur, phosphorous and 26 other analytes of interest in the petrochemical, environmental lab, and food & beverage markets. OI Analytical will also launch their new **Eclipse 4760 Purge and Trap Sample Concentrator**, offering faster cycle times and higher sample throughput in drinking water, wastewater, soils, and petrochemical applications.

Xylem's Bellingham + Stanley brand will be launching the new **RFM900-T Series**, high precision Peltier temperature controlled benchtop refractometers, providing a compact design and unmatched ease of use. Featuring a wide measuring range up to 1.70 RI and new 7" touch-screen user interface, they are ideally suited for use in quality control applications within the

chemical, petrochemical, pharmaceutical, flavours and fragrance industries as well as in academic research.

Xylem's YSI brand will feature their laboratory pH meters, offering a significant variety of unique pH and ISE instruments for a broad range of lab applications, from food & beverage and biochem to life science and water.

In addition to the new product offerings and market solutions at the Xylem booth, Xylem's YSI invites visitors to take the YSI pH Challenge to promote YSI's pH expertise in the lab. Visitors will have an opportunity to guess the pH levels of a variety of sample solutions. Conversely, Xylem's OI Analytical will be looking for Lab Heroes throughout the show, inviting visitors to stop by and share their story about why they're a Lab Hero.

### **Corporate News**

Xylem continues its commitment to growth with the acquisitions of HYPACK, Inc. in November and Tideland Signal Corporation in February. The acquisitions are the first for Xylem in over two years, and strengthen Xylem's capabilities in the ocean and coastal vertical market segments.

### **About Xylem**

Xylem (XYL) is a leading global water technology provider, enabling customers to transport, treat, test and efficiently use water in public utility, residential and commercial building services, industrial and agricultural settings. The company does business in more than 150 countries through a number of market-leading product brands, and its people bring broad applications expertise with a strong focus on finding local solutions to the world's most challenging water and wastewater problems. Xylem is headquartered in Rye Brook, New York, with 2015 revenue of \$3.7 billion and approximately 12,500 employees worldwide. Xylem was named to the Dow Jones Sustainability Index for the last four years for advancing sustainable business practices and solutions worldwide, and the Company has satisfied the requirements to be a constituent of the FTSE4Good Index Series each year since 2013.

The name Xylem is derived from classical Greek and is the tissue that transports water in plants, highlighting the engineering efficiency of our water-centric business by linking it with the best water transportation of all — that which occurs in nature.
