### **Omega Zen™ Pipette Controller Provides Hours of Consistent Use While Preventing Hand Fatigue**

Vernon Hills, IL—Get over nine hours of continuous and accurate use with the Argos Technologies® Omega Zen pipette controller. This portable, lightweight, and ergonomic pipette controller can be used with plastic or glass pipettes from 1 to 100 mL. The pipette controller's balanced design and contoured buttons help prevent hand fatigue even after hours of use.

Additional features include an easy-to-read liquid crystal display (LCD) that shows aspirate/dispense speed, gravity (drop) mode and battery charge. Aspirate/dispense speed can be finely tuned using thumbwheel and triggers. Lithium-ion battery charge status is accurately reflected on the LCD. The included auto-charging bench stand provides quick battery charging. For more information, stop by **booth 2054** at Pittcon or go to [www.argos-tech.com](http://www.argos-tech.com).

Argos Technologies, part of Cole-Parmer, provides a comprehensive range of equipment and supplies to the laboratory research community across the globe. Our product portfolio includes liquid handling, benchtop equipment, general laboratory consumables and cryogenic storage. We are committed to providing unique product and technological solutions for the challenges facing the scientific community and dedicated to providing the highest level of service to our valued customers.
