Exhibitor Marketing Timeline

Pre-show Marketing opens Pittcon exhibitors like you to greater promotional opportunities, increasing brand awareness, booth traffic, and leads. The benefits of pre-show marketing efforts are significant:

Currently, the Pittcon exhibitor pre-show marketing space is abundant with opportunity, as only approximately 5% of Pittcon exhibitors engage in pre-show marketing tactics, compared to an average of 20% at other shows:

In-show Marketing reaches beyond the booth, providing Pittcon attendees with a positive, lasting experience when they interact with your exhibition staff and product experts. Such marketing tactics are proven to enhance the overall effect of booth-based exhibition communication and interaction, yielding an improved quality of leads and increased return on investment.

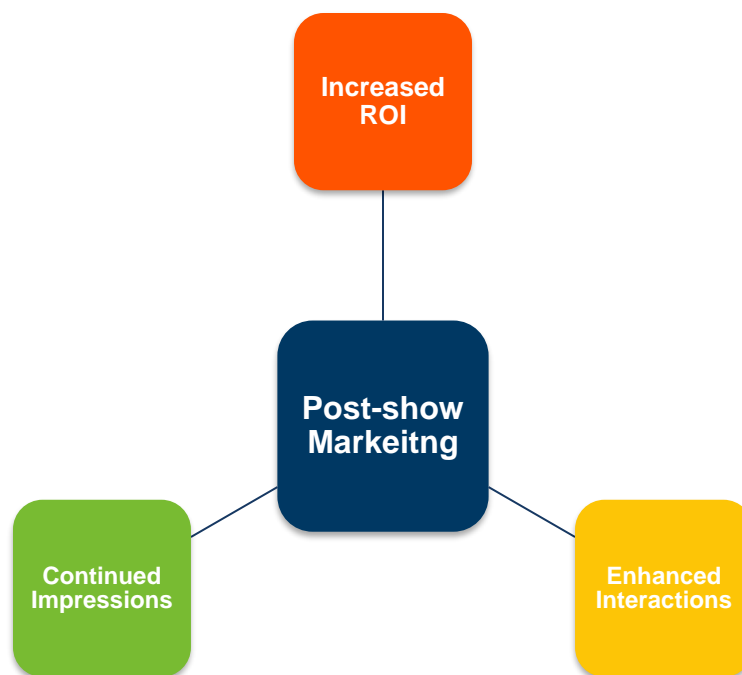

When coupled with pre-show marketing, in-show marketing provides attendees with a clear avenue straight to your booth. Together, they are a valuable promotional combination that informs attendees of the benefit of visiting your booth, promoting brand impressions and booth visitations.

This pre-show/in-show strategy works to improve not only the quantity of leads, but also, the quality of leads generated for you at Pittcon. In-show marketing is very much the practice of continued engagement.
